#### LOOKING OUT FOR THE ENVIRONMENT

##### **Bears are Active – Secure Your Attractants**

Bears are active and have been spotted in local neighbourhoods. Residents are reminded to do their part to keep bears away from unnatural food sources. Unsecured garbage continues to be the most common attractant, and it only takes one home's garbage to attract a bear. Ensuring wildlife doesn't find an easy meal in your neighbourhood will help encourage them to forage in natural areas rather than backyards. Property owners who allow wildlife to access attractants—even unintentionally—will receive a \$500 fine.

With COVID restrictions lifting, more community outreach is planned for 2022. Watch for displays at civic events, and register for a free Bear Smart 101 session on Thursday, April 28 from 6 to 7 p.m. at the Coquitlam Public Library's City Centre branch.

For resources, videos and information about local bear regulations, and to register for the upcoming Bear Smart 101 session, visit [coquitlam.ca/bearsmart](http://coquitlam.ca/bearsmart).

##### **Boulevard Maintenance Reminder**

As spring yard work projects get underway, residents who live next to City boulevards are reminded to maintain this public space by keeping the grass mowed, sight lines, and ensure sidewalks and multi-use pathways are clear for all users, pedestrians and drivers. Please visit [coquitlam.ca/boulevard](http://coquitlam.ca/boulevard) for details and to check out your landscape options.

#### TRAFFIC HOTSPOTS

##### **Dewdney Trunk Road Rehab**

Repaving of Dewdney Trunk from Viewmount Drive to Pier Drive is scheduled to begin in mid-April and will take about six weeks, depending on the weather. Construction crews will work Monday to Friday between 7 a.m. to 7p.m. They may work some Saturdays as well. Traffic flow and parking will be impacted during construction and traffic delays are to be expected, but every effort will be made to minimize the disruption.

Visit [coquitlam.ca/roadwork](http://coquitlam.ca/roadwork) for more details.
