

City of Coquitlam
Building Permit Worksheet
CN, MF – Industrial, Commercial, Institutional, Multi-Family

Office Use Only Folder Number: _____
--

To enable the timely processing of your building permit application, please complete this worksheet and submit it with your application. Check off the boxes in the “**Details**” column verifying completion/inclusion of the specified submittal requirement and sign and date the worksheet upon completing it. Staff will review the application, the worksheet and your supporting documentation (drawings, reports, etc.) for completeness; only complete applications can be processed.

Mandatory submissions for a complete application are designated with an “**M**”. The applicant is strongly encouraged to provide all of the information listed in the worksheet; application processing time will be adversely affected if all the information needed to demonstrate the design’s compliance with the applicable Codes, Regulations, Bylaws and property encumbrances is not included in your initial submission. A permit can not be issued until it is shown that all such requirements have been met.

Drawings Required ^{3, 4} – Please note: Maximum acceptable sheet size is 30" x 42".

Document	Copies	Details	Notes	Review
Certified Survey Plan	2	<ul style="list-style-type: none"> M - PID Number M - Legal Description M - Street address, street name(s) and location, location and width of any lane(s) M - Dimensions of lot; lot area M - Location and dimensions of all existing buildings and structures on the site M - Front, rear and side yard setbacks from buildings to lot lines. M - Lane dedications, registered easements, encroachments and rights-of-way M - Location of existing curb crossing(s) M - Existing grades at each corner of the lot and, for sloping sites, spot elevations of the property at one metre intervals M - Location of the natural boundary of any existing watercourses or environmental features M - Location, size and species of existing trees. 		
Site Plan	4	<ul style="list-style-type: none"> M - Dimensioned at a scale not less than 1:200 or 1/16" = 1'0" M - Street name(s) adjacent to and fronting the site M - Dimensions of site with property lines Easement, ROW, covenant restrictions M - Location and dimensions of all buildings and structures. Proposed structures should be labelled "PROPOSED" M - Existing and finished grade elevations M - Indicate Minimum Basement Elevation (MBE) as specified in the approved subdivision lot grading plans or covenant ⁶ Size and location of all off-street parking 		

Drawings Required (continued)

Document	Copies	Details	Notes	Review
Site Plan (continued)	4	<ul style="list-style-type: none"> • Access to parking and loading from street and/or lane with dimensions (applicant must check with the Engineering and Public Works Department for access permissions) • Floor area calculation • Lot coverage calculations • Location of garbage and recycling facilities • M - Location of the natural boundary of any existing watercourses or environmental features • Location of fire hydrants and fire lanes (including curbs and paving material) 		
Landscape Plans ⁵	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:200 or 1/16" = 1'0" • Indicate planting, paving, water features and site furnishings (indicate civil works to demonstrate coordination with civil site servicing drawings - water, storm, sanitary, street works and sediment control) 		
Servicing Plans (Off-site Servicing ¹⁰)	4	<ul style="list-style-type: none"> • M - Civil drawings dimensioned at an appropriate scale • Indicate site servicing (water, storm, sanitary, street works, shoring, any encroachments, excavation, crane swing over property lines and sediment control) • Traffic Management Plan • Location, invert and size of utility connections (for service connection information please contact the Engineering and Public Works Department at 604-927-3500 or by e-mail at EngineeringandPublicWorks@coquitlam.ca) 		
	1	<ul style="list-style-type: none"> • Provide 1 PDF copy on a memory stick of all drawings. 		
Floor and Roof Plans	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:50 or ¼" = 1'0" • M - Separate plans of all storeys (including all levels of underground parking, if proposed) and roof; show all outside dimensions of each floor • M - Indicate all room uses and dimensions, including finished/unfinished areas • M - All door, window and skylight locations and sizes • Location extent and construction of all fire rated assemblies • M - Clear indication of proposed work for additions to an existing building • M - Identify access-for-persons-with-disabilities measures 		
Building Elevation and Building Section Drawings	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:50 or ¼" = 1'0" • M - Elevations of each side of the building • M - Opening sizes, locations and types • Location extent and construction of all fire rated assemblies • M - Existing and finished grade elevations at the extremities of each building elevation and elevations of each floor level and the elevation or the highest roof ridge/peak • M - Spatial separation calculation for each building elevation 		
Detail Drawings	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:25 or ½" = 1'0" • Building envelope details • Door and finish schedules 		
Structural Drawings	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:50 or ¼" = 1'0" • M - Provide full documentation of structural design • M - Provide tabulation of all load assumptions 		
Mechanical Drawings ¹⁰	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:50 or ¼" = 1'0" • M - Provide full documentation of heating, ventilation and air-conditioning design, and identifying: <ul style="list-style-type: none"> • Fire dampers • High-building pressurization measures • Duct smoke detectors • M - Provide full documentation of plumbing design • M - Provide sprinkler system concept 		

Drawings Required (continued)

Document	Copies	Details	Notes	Review
Electrical Drawings	4	<ul style="list-style-type: none"> • M - Dimensioned at a scale not less than 1:50 or 1/4" = 1'0" • M – Provide full documentation of electrical design, and identifying: <ul style="list-style-type: none"> • Emergency power provisions • Exit signage • Emergency lighting • Alarm system 		
Letter	1	<ul style="list-style-type: none"> • Letter signed and sealed by electrical engineer 	Confirming design of EV charging infrastructure meets Zoning Bylaw requirements and design standards in City EV Guide	

NOTES:

- 1 An administration fee will be added to the outstanding building permit fee for any documents that the City must source.
- 2 Certifications for components and systems that do not comply with the Code’s prescriptive requirements (see Staff).
- 3 Drawings must be to a recognized scale and collated; Drawings must be for building construction – no qualifying notes permitted. Verify the drawings have been coordinated by the Coordinating Registered Professional. Maximum sheet size is to be 30” x 42”.
- 4 Identifying information required on all submissions:
 - Name of and contact information for Owner;
 - Name of and contact information for Designer;
 - Date document prepared;
 - Civic address of site;
 - Document number and revision;
 - North arrow (on plans);
 - Original dated seal and signature of the registered professional responsible for the design and field review.
- 5 Landscaping design (including tree planting plan) demonstrating compliance with the requirements specified in the Zoning Bylaw and/or Development Permit must be shown.
- 6 MBEs different from those specified in the subdivision lot grading plans or in applicable covenants will require updating of the subdivision lot grading plan or covenant prior to issuance of the Building Permit.
- 7 Ensure the 2012 BC Building Code LOAs are filled out completely with the correct address, legal description and all required items are not to be altered or deleted. Original seals and signatures are required.
- 8 Applicable to residential construction only.
- 9 Building permit submissions must be consistent with applicable approvals (e.g., Development Permit, Preliminary Subdivision Approval Letter).
- 10 Off-site servicing relates to construction activities on City property, and must be documented separately from on-site servicing. On-site servicing must be shown on the building mechanical drawings.
- 11 All required Legal documents are to be fully registered in Land Title Office and all required licenses/agreements are to be in place prior to the issuance of any type of Building Permit.

I certify that the attached submission is complete and accurate, and includes all of the above items.
